Committed to Wellbeing and Attainment

About us...

We're a **family-run** private Educational Psychology service based in the UK Midlands led by Dr Simon and Dr Fatima Bignell. We consist of a wide team of experienced Educational and Developmental Psychologists.

As parents and professionals ourselves we want to help children be happy and achieve their full potential using the latest **evidenced-based methods** and assessments.

Our Psychologists are selected for their personal qualities, experience and qualification. They all have at least one degree in Psychology and a professional training and Doctorate in Educational Psychology or a PhD in Developmental Psychology and research publications. They have applied and research experience and are employed by Universities and Local Authorities.

Our Educational Psychologists are regulated by the Health and Care Professions Council and work within the British Psychological Society's Code of Ethics and Conduct. **We maintain the highest standards.**

Our services...

We specialise in evaluating the individual needs of **children and young people of all ages** and advising and assisting parents and schools to help them.

We use **achievement and intelligence assessments** and can provide detailed evidence-based educational recommendations for **interventions and support**. Areas include, learning difficulties, school work,

emotional and behavioural difficulties, Dyslexia, Autism, ADHD, gifted and talented pupils, training and consultation and many other flexibly delivered services. We offer impartial advice or full diagnostic testing.

If you are a **parent** concerned about your child's attainment or development, a **school** in need of expert advice and support or a **Local Authority** needing locum cover MyChild Services offer **competitive rates**.

How we work...

We start with an initial consultation followed by observation and assessment to produce a clear detailed confidential report.

We can offer personalised recommendations that include educational strategies, targeted interventions and guidance.

Our evidence-based recommendations are often integrated into the child's school curriculum and used to target particular strengths or weaknesses.

All assessments include:

- ✓ An initial consultation with an experienced Educational Psychologist.
- ✓ Individual work with the Psychologist using a range of assessment materials.
- ✓ A clear, detailed and comprehensive report.
- ✓ Personalised recommendations: advice, strategies, targeted intervention programmes and guidance on additional support.
- ✓ A follow-up consultation to discuss the report and any further questions you may have.
